INTRODUCING: MORTISE HINGES

Ashley Norton is pleased to offer hinges in a variety of finishes to compliment our Solid Bronze and Solid Brass door hardware. Our plain bearing, full mortise hinges are manufactured from solid brass extrusions to current ANSI template specifications. Assorted finial tips are optional.

GENERAL INFORMATION

- Full mortise, plain bearing hinges
- Manufactured from solid brass extrusions to ensure excellent strength and precision tolerance
- Removable pin
- Template screw hole location for use with wood doors and frames
- Priced and sold in each

TECHNICAL FEATURES

- Pins manufactured from grade 304 Stainless Steel to prevent corrosion
- Finials threaded into barrel of hinge to prevent pin from rising
- Pin removed by unthreading each finial and tapping pin upwards from bottom of barrel
- Supplied with Philips head wood screws
- Hinges are beveled on inside leaf to obtain tight fit when viewing the hinge in a closed position

FINISH OPTIONS

- Distressed finishes available to complement our Solid Bronze patinas (BZ, LT and WL). Hinges are manufactured in solid brass to allow for exceptional strength, there may be a slight variation in texture between the hinge and the Solid Bronze product
- Available in any of our Solid Brass finishes
- Hinges are not available in Matt Black (TC)

FINIAL OPTIONS

- Finials thread into top and bottom of barrel
- Supplied as standard with button finials
- Pairs of decorative finials available at an additional cost
- We recommend that any finials in our Light Bronze (LT) or Light Oil Rubbed (.6) patinas be ordered with the hinge to allow for finish match

NUMBER OF HINGES

- Three hinges for doors up to 7 ½'
- Four hinges for doors over 7 ½' and up to 10'
