Ashley Norton

Since 1987, Ashley Norton's premium door hardware has graced the homes of discerning clients and upscale resorts worldwide.

Designed in England, our product range includes a wide selection of contemporary and traditional levers to accommodate almost any architectural style. Some of our designs are influenced by contemporary Italian themes.

Ashley Norton hardware is aesthetically pleasing and good to touch. Backed by the most durable components, Ashley Norton strives to produce the finest quality products time and time again.

Our Finishes

Ashley Norton

Standard

.4 Satin Nickel

.8 Dark Oil Rubbed

Our numerous finishes allow our clients to express individuality. From trendy polished nickel to a more traditional satin nickel or oil rubbed bronze... the choice is yours.

Dark and light oil rubbed bronze are dynamic. These "living" surfaces will take on unique hues as age, climate and touch work their charm, creating an ever-changing patina.

Our standard finishes are dark oil rubbed (.8) and satin nickel (.4). Seven additional finishes are custom manufactured to order.

The photos shown in this brochure give a close representation of the true appearance of these finishes, but a visit to a local dealer will allow you to appreciate the true appearance and feel of our hardware.

Custom

.2 Satin Chrome

.9 Polished Chrome

.4B Polished Nickel

.7 Pewter

.3 Polished Brass

.3U Unlacquered Brass

.6 Light Oil Rubbed

Please note that products ordered in our custom finishes are manufactured to order.

GUIDE TO FINISH CODES

US	BHMA	ASHLEY	FINISH

15A	620	7	Pewter
10B	613	8	Dark Oil Rubbed
26	625	9	Polished Chrome

Our Suites

Ashley Norton

Rectangular Suite

Arched Suite

Contemporary Suite

Traditional Rose & Oval

Almost any combination of lever, escutcheon and finish may be combined to create a unique piece for your project. See inside back cover for further technical information relating to ordering Ashley Norton hardware.

CODE CONSTRUCTION

Handing is required for single dummies and all entry hardware. Our interior passage and privacy sets do not require handing, except if ordered with the 'AR' escutcheon.

To designate a split finish indicate the exterior finish first then the interior finish. For example .8/4 designates dark oil rubbed outside with satin nickel inside. Any split finish combination is considered custom.

HANDING GUIDE FOR SWINGING DOOR HARDWARE

- L** = Left Handed
- R** = Right Handed
- LHR** = Left Hand Reverse (mortise lock only)
- RHR** = Right Hand Reverse (mortise lock only)

GUIDE TO INTERIOR FUNCTIONS

Privacy - 20 Function

A locking set with operable handles. Door locked by a push pin from the inside and can be unlocked by inserting a pointed object from the outside.

Passage - 30 Function

A non-locking set with operable handles on both sides.

Single Dummy - 40 Function

Inoperable handle on one side of door.

Full Dummy - 42 Function

Inoperable handles both sides of door.
